

Action Updates Behind the Scenes! FFIOW AGM

We had a great turnout at our AGM at The Castle Pub in Newport and our thanks to everyone who attended and to those who became our committee members for the next year. The minutes of the meeting can be found [HERE](#).

WEALD ACTION GROUP

Some of our members revisited the WAG in Surrey for a day-long meeting with workshops and information sharing. We have been part of this group for the past year and supporting colleagues who are working to protect their communities from oil exploration. Additionally we are able to learn from their actions, ideas, organisation and resources.

COMMONWEAL WHEEL

Tom Cousins and 11 representatives from drillsites across the country travelled to Westminster and were hosted at the House of Lords in a symbolic delivery of our Commonweal Wheel. You can view the whole story [HERE](#) and view the photos of the day [HERE](#)

What Else Can I do?

We work to help all protection camps on the mainland by lending our support.

You can sign this petition by the Leith Hill Group in Surrey who are fighting against drilling across the South of the UK

By supporting any protection group we are making a stand for the whole country.

Be Well-Informed

Visit our website. There is a lot of useful, readable information there, with additional links to facts and documents for further reading. You can link to Drill or Drop to read the latest news from our home page.

Our site is there to help inform the public about the issues that fossil fuel extraction in the UK has raised. The more you know the better prepared you will be to participate in public consultations or consider other action here on the Isle of Wight when action is needed.

Donate to FFLOW and/or become a member

If you donate more than £6 you also become a member for the year and can vote at meetings when important decisions on actions are made.
